

CONCUSSION PROTOCOL

The safety of our Athletes is a priority and practicing or playing with concussion symptoms can prolong a recovery. Concussions can be serious and any additional concussions can be very serious and subsequent or continual concussions may cause brain damage.

An Athlete **should be removed from Practice(s) and Competition(s)** until they are symptom free and completes the **Return to Play Protocol**.

The Concussion Protocol has been made available to me to review.

I have read, acknowledge, understand, and agree to the Concussion Protocol for my player.

Student's Signature (Required): _____

Parent/Legal Guardian's Name: _____

Parent/Guardian's Signature: _____

**Required if student is less than 18 years of age.*
